

ZION CHAPEL JUNIOR 4-H CLUB MEMBERS learn to plant pecan trees. Shown with the boys at a recent 4-H meeting is extension farm agent J. R. Speed. The boys pictured are — front row, kneeling left to right: Jeffery Bimbo, Gordie Houston, Terry Nelson, Randall Black. Back row, standing left to right: Ned Bundy, Mr. Green, local leader; Dennis Kelley, Larry Stokes.

FARM NEWS

By Tom Casaday, County Extension Chairman

FEEDING CATTLE
Melvin Haas of Haas-Davis Packing Company in Mobile told a group of farm leaders that Alabama cattle producers were losing money by not growing and feeding cattle to heavier weights. As has been pointed out often in the past, most Alabama cattle are being fed elsewhere and then shipped back into the state.

With the possibility of increased per acre yields of grain and the improved shipping rates on grain, Coffee County growers may find that feeding cattle to heavier weights will be more profitable. The price outlook in the next few years on fed cattle looks real good.

SOYBEANS
Several County Extension Chairmen and folks interested in increased soybean production met for a day and half in Mobile last week to tour the State Docks Facility and learn more information about growing soybeans. One official told us that in the years just ahead of us 65 million bushels of soybeans will be urgently needed to maintain the needed supply. This would require at the present per acre yield rate of production about 10 million additional acres of soybeans.

We believe soybeans can be profitable for dozens of Coffee County growers. Experienced growers point out that it takes time to learn to grow soybeans and it is usually best to begin with just a few acres. We are planning a meeting on soybean production to be held March 1 in Enterprise and Elba in conjunction with the peanut meetings.

EQUIPMENT
With the severe weather the past two weeks, I am reminded of the need for better hog farrowing and handling equipment for Coffee County growers. Extension Farm Agent J. R. Speed is anxious to help growers with blue prints and plans for simple hog

farrowing facilities. Call on him or on me if we can help you.

OPPORTUNITIES
Jake Morrow, of Elba, is working on plans for a pea market this year. He told me a few days ago that he hoped to have information in the next few days concerning his contacts with the processor.

PECAN FERTILIZATION
One of the essentials for successful pecan production in proper fertilization. Nitrogen, zinc and calcium have been found to be the most essential elements for good tree growth and nut production. The best way to determine the nutritional needs of a pecan orchard is by soil test. The nitrogen require-

ment for bearing trees will be about the same under most conditions. Apply 8 pounds of actual nitrogen per tree in February, so it will be available to the trees during the period of flush growth which occurs mostly in the month of May. Apply lime only as recommended by soil test to maintain a pH of 6.0 to 7.0. Zinc is needed to prevent rosette, especially if lime has been applied. Two pounds of 30 percent zinc sulfate per tree each year or 10 pounds every five years is sufficient to prevent rosette.

LIME
Coffee County's peanut yield in 1965 was 1400 lbs. per acre. This can be increased rapidly to 1800 lbs. per acre or above by using

Weather Outlook For February

The Thirty Day Agricultural Weather Outlook for the month of February for South Georgia, Southeast Alabama and Northwest Florida issued by the Weather Bureau Advisory Agricultural Meteorologist, Georgia Coastal Plain Experiment Station, Tifton, Georgia, February 2, 1966

is as follows:
Temperatures during February are expected to average much below normal over all of the Tri-State Agricultural area. Daily maximum temperatures will average between 48 and 56 degrees. Daily minimum temperatures are expected to average between 39 and 47 degrees with early morning temperatures falling to 32 degrees or lower on 3 to 5 mornings during the period. Rainfall during the next 30 days is expected to average between 4.00 and 6.50 inches occurring mostly as general rains on 7 to 10 days during the period. Sunshine during February is expected to average about 55% of possible with several periods of extended cloudiness. Soil Temperatures are expected to hold at seasonal lows during most of February with 4 inch bare soil temperatures averaging between 48 and 58 degrees.

MRS. ALLEN

State Auditor Candidate Visits Elba

Malba Till Allen, candidate for State Auditor, was a visitor to Elba Tuesday. Mrs. Allen, of Montgomery, is married and the mother of two children, Judy, age 13, and Randy, age 10.

She states that she has 13 years experience in business and that she feels that everyone should have experience in the business world before they start using the taxpayers' money.

Mrs. Allen was born on a farm in Butler County, worked for seven years in Mobile and since moving to Montgomery has worked for several years in the accounting department of a private firm. She is a member of the Court Street Baptist Church, of Montgomery, and has taught Sunday School for ten years. She is also a member of the Business Women's Association and the Eastern Star.

Safe Cut Open At Local Candy Co.

Burglars visited the office of Sawyer Candy Co. on Wednesday night, February 9th.

The visitors entered by prying open a door in the rear of the warehouse area of the building and from there moved with ease into the office area with their tools and torches necessary to open the safe.

The items missing along with the money in the safe included radios, watches, an iron and a billfold. Possibly other items were taken but were not missed at first.

The new James Bond spy thriller movie "Thunderball" will be at the Dixie-Land Drive-In during the week of March 17 thru 23 according to the manager Hubert Von.

Yon stated that this James Bond movie, starring Sean Connery, is breaking all box office records and that local viewers are fortunate to have it shown here this soon after release.

THE DECORATING COMMITTEE for the Elba Teen Club Valentine Dance "All Gathered round" and prepared for the dancing balloons at about 5:30 Saturday afternoon. The balloons were then tied in groups and hung from the lights to complete the colorful Valentine decorations for the

The Elba Clipper

ELBA, ALABAMA, THURSDAY, FEBRUARY 17, 1966

NUMBER 32

Hospital Patients Quartered In Halls

The over crowded situation at the Elba General Hospital has not been eliminated nor even relieved during the past week. The patient census Tuesday afternoon, before the storm visit, was 33. The Elba General Hospital is only a 28 bed facility but can take others if they are emergencies, according to Hospital Administrator Bill Pierce.

The patients in the halls are probably not at ease with the constant traffic up and down the halls and the nurses' efficiency is cut by having to navigate equipment up and down the narrow lanes in the halls between beds and the wall. At the same time there is the problem of meeting another nurse with another machine who is trying to go in the opposite direction.

The Hospital Board has an appointment with the State Hospital Planning Commission next week to request their help in expanding the hospital to a 50 bed facility by adding 2 three bed wards and 16 private rooms to the present building. This can be accomplished without any additional taxation with the help of state and federal funds.

The response to last week's request that interested persons state their position on this matter brought an overwhelming approval of the idea of expanding the hospital.

Qualified, non-regulated voters are reminded that the Coffee County Board of Registrars is in session all this week in the Elba courthouse. They will also be in session on Saturday for the convenience of people who cannot appear before the board during the week.

Board member, Quintie Whitman, stated Tuesday that only a small number of unregistered Elba voters have applied this week. Mrs. Whitman said that only five persons applied Monday and ten filled out applications on Tuesday.

Both board members, Mrs. Whitman and Mr. S.C. Wilson, acknowledge the need for some local citizens to actively encourage non-registered citizens to register to vote. More registration days are scheduled for the month of March.

New Movie Is Coming To This Area Soon

The new James Bond spy thriller movie "Thunderball" will be at the Dixie-Land Drive-In during the week of March 17 thru 23 according to the manager Hubert Von.

Yon stated that this James Bond movie, starring Sean Connery, is breaking all box office records and that local viewers are fortunate to have it shown here this soon after release.

The Elba market has been allocated 750 acres for this year and though it is possible Elba might receive an increase if necessary, the safest bet for farmers who definitely want to grow peas this year is come in Thursday or Friday before the present limit is reached.

Morrow states that the Elba market has been allocated 750 acres for this year and though it is possible Elba might receive an increase if necessary, the safest bet for farmers who definitely want to grow peas this year is come in Thursday or Friday before the present limit is reached.

Morrow has an advertisement in this issue of the Clipper giving some details about the program sign-up.

The Choral Concert is open to the public as are all of the events scheduled for Arts Festival Week at the military junior college and prep school.

Saturday night affair at the Elba Country Club. The teenagers planned, financed and prepared for the dance from their treasurer, according to teen president, Joel Inman.

The dance lasted from 8 until 12 and music was furnished live by an out of town professional dance band.

Boys making the visit included: Van Vaughan, Mike Williams, Jeff Wise, Gary Mulaz, Tony Cooper, Joe Maddox, George Dorsey and back row: Hutch Windham, Randy Mulaz, Mark Jacobs, Mickey Willis, Richard Clark, Kieth Houtz and Tony Martin.

Den mothers accompanying the scouts were Mrs. Frank Mulaz and Mrs. James Clark of Den 9 and Mrs. Jimmy Dorsey of Den 8.

Andalusia Businessman To Head Cancer Drive

Robert J. Smith, Andalusia man, has been named chairman of the 1966 crusade of the American Cancer Society, Alabama Division Inc., for 13 south-east Alabama counties.

Announcement of the appointment was made by the division nominating committee, composed of J. C. Barry, Birmingham, Chairman; Henry P. Johnston, Birmingham, and W. Lyle Hinds, Montgomery.

Smith is responsible for enlisting county crusade chairman for the April educational campaign of the American Cancer Society in the following counties: Lee, Macon, Russell, Bullock, Crenshaw, Pike, Covington, Coffee, Dale, Henry, Geneva, and Houston.

Smith is general manager of the Southeast Alabama Gas District, a director of the Covington County Bank and The Equity Life Insurance Company, a member and past president of the Chamber of Commerce, a Rotarian and Mason, past president of the Andalusia Country Club, and past chairman of the Covington County Red Cross. He is a member of the official board of the First Methodist Church of Andalusia.

A native of Kansas, he attended Oklahoma State University, where he received a degree in business administration. He is married to the former Vera Cline of Coffeyville, Kansas, and they have two sons.

Have You Seen Windy?

If anyone has seen a little blue pet parakeet answering to the name of "Windy," please answer the ad in the classified section of the Clipper.

The bird belongs to a heartbroken little girl and she knows Windy left because of fright when it flew out the door and the cold rain hit. The bird was a family pet but the little girl, Ann English, claimed a special attachment to Windy. So if you have seen it, please call her mother, Mrs. Betty Bone.

Brantley Youth Sings With Cadets

Cadet John R. Wible, of Brantley, sang with the Marion Institute Chorus in the Alabama Junior Miss Pageant at the Alabama Theatre in Birmingham recently.

The 45-man Cadet Chorus auditioned the music for the pageant and members of the Chorus also served as escorts for the contestants on stage.

The Chorus will also participate in the Marion Institute Arts Festival this week, presenting a concert in the Institute Arts Building on the evening of February 17. This concert will be given as a joint program with the Jdson College Choir.

The Choral Concert is open to the public as are all of the events scheduled for Arts Festival Week at the military junior college and prep school.

State Issuing New Teaching Guide Now

The first Elementary Course of Study in thirty-five years is now off the press, and copies are being sent to teachers over the State. The new Course of Study is designed to sharpen the edge of learning in all elementary grades. Teachers are urged to capitalize on experiences that should help the children of Alabama to learn to think and to solve problems.

More than one hundred educators wrote the Course of Study while hundreds of others submitted suggestions and assisted in the organization of materials. The State Course of Study Committee and the State Board of Education evaluated and then accepted the new Alabama Elementary Course of Study.

The Course of Study is divided into nine sections, and each section is concerned with an important area of the curriculum. All sections are written to emphasize changing concepts, content, methods of teaching, sources of materials, and evaluation of learning. This is the first detailed Course of Study in science. Learning to read is emphasized throughout the entire bulletin, including the best methods for each child — be it phonics, rapid reading by sight where possible, or comprehension. It offers a challenge to all concerned with education. That challenge is to help each youngster develop and use his God-given talents to the fullest and the most worthy purposes.

Rotary Officers Elected Monday

The Elba Rotary Club elected new officers at their regular meeting Monday, according to the current president, Dr. McCrea.

Elected to serve for the coming year were Harold Deal, Vice-President; Doug Martin, Secretary-Treasurer; and Dr. McCrea, Secretary. Charles Hayes III and Robert Cannon will serve on the Board of Directors.

The new officers will take office at a later date.

Dr. Warr To Attend Meeting In Atlanta

Dr. E. M. Warr, of Elba, Ala., is among those registered for the 43rd Annual Southeastern Educational Congress of Optometry, February 19-20, at the Marriott Motor Hotel in Atlanta.

The new officers will take office at a later date.

PRIVATE ROBERT F. INMAN, (right) son of Mr. and Mrs. L. F. Inman of Elba, is congratulated by Colonel Joe B. Lamb, Commanding Officer, Fourth Brigade, Fort Jackson, South Carolina. Private Inman was presented a certificate designating him "Outstanding Honor Graduate" of the Personnel Specialist Course (PSC) He was selected for this honor in recognition of his leadership, military bearing and training proficiency. Inman was on active duty for 6 months with the Alabama National Guard and has now returned to civilian status and to his job with the news department of WFSB-TV in Montgomery, Alabama. (U. S. Jus' Ramblin'

By

LUCILE K. WOODHAM McRAE

IT LOOKS now like an exciting political year in Alabama and Covington County, La. Wallace is expected to qualify any minute now - at least the Wallace forces have their heads together in conference and looks like an announcement might be made very soon now - whether it will be to run or not to run is anyone's guess but the prediction now is that Alabama might have its first serious threat of a woman for a state office and probably even in their own county and district.

I REALLY would like to see the Glichter run for governor and Mrs. Wallace also be a candidate. The political war would sure fly and I have no doubt but that Glichter in the shade unless the "dear people" of Alabama vote differently what they said about the Glichter Company during that session of the Legislature. I would like to see those two in the race for Governor. And the other candidates would suffer because of it since it could develop to be a battle against Wallace and for Wallace. I have seen only a few people who said they would vote for Mrs. Wallace but after she is in the race those comments could change.

AND THEN will come the real excitement after the Democratic Primaries and it will be "Party vs. Party." The Republicans are putting candi-

date pills to make us more intelligent on days when we must take important tests or figure out a complex problem or when a good impression; a medicine that will help us become a good reader, and a chemical to give everyone in town a super-memory.

I'm looking forward to those pills. Then there will be no excuse for the kids not to bring in report cards filled with all "A's" and grandma will be as smart as they are.

INTERESTING IS AN 86-year-old-great-grandmother in Ozark who continues to be active in the town's newspaper, Jack Hopper, Birmingham News Staff writer, gave a report of Mrs. Vivian Adams, who he stated is an institution in Ozark. Any day you enter the office of The Southern Star newspaper at Ozark you will see an old rocking chair occupied by this 86-year-old-great-grandmother. She has been in the newspaper since 1900 and full time since her husband died in 1925. She does the proof-reading of copy for the Star and handles all out-of-state circulation. According to Hopper, she has printer's ink in her blood and wouldn't change for anything. She says "Newspapering is an exciting life." According to Hopper, the way she says it leaves no doubt in anybody's mind. Her son, John Adams, is publisher and her grandson, Jesse, handles advertising for the Star. She has the titles but she handles advertising for the Star. She has the titles but she handles advertising for the Star. She has the titles but she handles advertising for the Star.

YEP, 1966 is going to be an interesting year and some unusual things are going to happen during the year. But to tell you the truth I'm not much in favor of all the top political offices being held by women. Every election year more and more women become candidates. I hope the trend is for better government. I guess I should say "We women ain't gonna be discriminated against."

AN ARTICLE in this week's magazine Sunday was entitled "Push Button Brain" and might be here until I'm a hundred if the scientists hurry and get these memory pills. I guess I should say "We women ain't gonna be discriminated against."

SMOOTH SELLING

By George N. Kahn, Marketing Consultant

THE SALESMAN IS A V. I. P.

There is a formula here in some circles that selling is not a science. For this attitude we should blame on the colleges, the professors, and anyone else who has ever stayed in line with the salesman. The salesman is the one who really knows the value of his product. Years later he told me: "You'll be surprised at how many people have owned my eyes in what I was selling. That I could become a No. 1."

Selling will never achieve its rightful status in the business world until salesmen start thinking of themselves as very important people. The salesman is the one who really knows the value of his product. Years later he told me: "You'll be surprised at how many people have owned my eyes in what I was selling. That I could become a No. 1."

Rate Yourself High The salesman who speaks apologetically of his vocation or derides his colleagues is simply cutting his own throat. When the salesman glows of "pulling a fast deal," he is doing great harm to himself and his profession. In short, if you talk and act like a sidekick, you'll be treated that way.

Management is much quicker to recognize the salesman's importance than he is himself. Businessmen know that creation of demand is a vital factor in their profit and loss statements. These days all top executives and even technical personnel are sales oriented. Engineers must think like salesmen to design products that appeal to consumers. Even the production department must gear its effort to a sales campaign.

Salesmen Are First Class Citizens The salesman is the key person without whom there would not be any business. But many salesmen behave like second class citizens and too often that's the kind of reception they receive.

I remember running into an old friend, Jack Creswell, who hadn't seen in years. I asked him what he was doing. Jack replied, "I'm a salesman." He said he was "on the road" for a four-hour day.

"Of course, this is just until I can find something better," he made his job sound as if he was washing dishes in a cheap hotel house.

"Jack," I said, "there is probably a million wrong with the job except yourself. Before you move to what you think is a greener pasture, why not put this job your best. If you think of yourself as a failure in selling, you'll be a failure in selling."

The trouble with many unimportant salesmen is that they don't understand the dynamics involved in selling. They are really clerks at best whose horizons are limited. They never think of selling as an adventure and as a test of one's true ability. They could move mountains, but they go around them instead. They play it safe, and in time, level off as mediocre salesmen.

The earnest, imaginative salesman can write his own ticket to wherever he wants to go. With faith in himself, drive and the right tools, he can make big money and climb high in his firm.

The earnest, imaginative salesman can write his own ticket to wherever he wants to go. With faith in himself, drive and the right tools, he can make big money and climb high in his firm.

look might good and do a whole lot of "decorating" the place for me to pay a wage "do nothing." When it comes to costing money I haven't seen anyone who looked that good.

A "Different" Sweet William

Speed your way to a sunnier day... open your very own Savings Account

Red Monarch is a new sweet william that blooms in two months from the time seeds are sown. Unusual in color too.

Most sweet williams are biennials. That is the seeds are sown one year and develop into small plants. These winter outdoors and bloom the following year. Red Monarch sweet william acts, instead, as an annual, blooming in two months from seeds sown in early spring, or in spring from fall-sown seeds. That's one characteristic that makes it "different."

A second is its flower color which is solid scarlet red, not flecked by white streaks. Since matter plants grow in inches high if spring sown and 6 inches tall if sown in fall, they are easy to grow. They last a long time. They are easy to grow. They last a long time. They are easy to grow. They last a long time.

Because of its annual flowering habit and its new color Red Monarch received an award for 1964 from All-America Selections. Seeds of all award winners should be purchased early as there never is enough to go around.

You may not reach the moon but you can reach a comfortable feeling of security with a safe savings reserve of cash in your own Savings Account. Start your savings program now and see how quickly your money adds up. Remember, it earns extra money for you all the time in your Savings Account here. Open yours today.

National Guard Plans For Civil Defense

The possibility of a nuclear bomb dropping on Alabama may not arouse the general public, but this threat has been the subject of a full year's planning by the Alabama National Guard.

The military support for Civil Defense Section was formed in February, 1965, under a Department of Defense program now operative in all states. The mission is to coordinate the emergency operations of all Army, Navy, Air Force, Marine Corps, and Reserve components assigned to support Alabama civil defense efforts in nuclear attack.

Headed by Colonel James L. Reynolds of Prattville, the section is composed of representatives from all military units in the state and one enlisted man.

In the first year of operation, emergency plans have been formulated to employ all National Guard units. Planning is now continuing to active duty forces which have been designated by the services to be available to assist the state in a nuclear disaster.

In the event of attack, the planning staff and other elements of the Army and Air National Guard would be ordered to active duty under Major General Alfred C. Harrison, Alabama Adjutant General, Guard Headquarters would serve as a State Area Command under the Third U.S. Army at Fort McPherson, Georgia.

This command would provide day to day coordination in the history of the Civil Defense System as required and as available. Under this concept the Civil

Defense System will remain under civilian control.

In noting the first anniversary of the Military Support Section, Governor George C. Wallace said, "In nuclear warfare we must include all possible resources in our emergency plans. We are pleased that our own National Guard has been named the chief planning center for this vital function."

IT'S UP TO YOU

By Howard E. Kershner, L.L.D.

Capitalism vs. Socialism

CAPITALISM and the market economy afford the greatest freedom of choice for the individual.

Capitalism is the system of goods and services he desires, and it will not be available to him in greater quantities than the market can produce.

Capitalism is the system of goods and services he desires, and it will not be available to him in greater quantities than the market can produce.

Capitalism is the system of goods and services he desires, and it will not be available to him in greater quantities than the market can produce.

Aviation Fuel Tax Increases This Year

Despite a special drive by the airlines to reduce their gasoline loadings in Alabama, so as to reinforce their new efforts to secure reduction of the aviation gas tax, revenue for the 1964, the October revenue was \$67,000, as compared with \$54,046 for October, 1963. October was the third highest month to date.

Revenue for the first two months of the new fiscal year (\$130,822) was more than \$30,000 ahead of the same period last year (\$100,285).

SOCIETY

MRS. WILL KENDRICK, SOCIETY EDITOR

Miss Folsom, Mr. Boyen Marry In Honolulu

Miss Melissa Carnley Folsom and Lt. Richard Edward Boyen, Jr. were married at noon, January 17, in the Central Union Church, Honolulu, Hawaii.

The bride is the daughter of former Governor James Eliza Folsom and the late Mrs. Sarah Carnley Folsom, both natives of Elba. The groom is the son of Mr. and Mrs. Richard Edward Boyen, of Honolulu.

Doctor Thomas L. Crosby performed the ceremony.

The bride wore a short wedding dress of white peau de soie fashioned with a fitted empire waistline and an "A" line skirt. Her matching headpiece was a cluster of lace secured to a French Pompadour veil of white silk illusion. The bride's bouquet was centered with three large white orchids.

The bride was given in marriage by her father, Mr. Boyen served as bestman for his son.

For her son's wedding, Mrs. Boyen wore pale pink and matching accessories. A wedding luncheon followed the ceremony at "The Willows".

For traveling on a wedding trip to the island of Kaula, Hawaii, the bride wore a yellow linen suit.

The bride is a graduate of the University of Alabama, where she received a B.S. Degree in Education. The groom is a graduate of Southern California, where his social fraternity was S.A.E.

The couple is residing at 3077 Jackson Street, Apt. 103, San Francisco, California.

BWC Has Anniversary

The 29th anniversary meeting of the BWC was held at the church Monday night.

The buffet table was covered with red linen bearing cupids, hearts, and other valentine suggestions. The table at which circle members and guests were seated was beautifully decorated in the valentine theme.

After the delicious supper was served, Miss Gladys Clark presided. Devotional was by Mrs. G. L. Pinckard. Mrs. Sam Sawyer was a guest and spoke on the Laymen's Conference in Colorado Springs.

Miss Clark recognized another guest, Mrs. C. E. Dorsey, Sr., in whose home the BWC was organized in 1937.

All circle members, except two, were present on this delightful occasion.

Mrs. Boswell

Hostess To Gussie Hutchison Circle

The Gussie Hutchison Circle met with Mrs. Harry Boswell, Mrs. Cecil Bowdoin presided and gave the devotional. The Royal Service program was given by Mrs. Boswell. Mrs. Bowdoin, Mrs. Alva Devane and Mrs. Sarah Rainer. The hostess served refreshments.

Personals

Sam Carnley, of Alabama University, Foyce Ann Bowdoin, of Tusculoo, College, and Billy Bruce, of Samford University, spent the weekend in Elba with their parents.

The yard of Mrs. Oliver Williams was selected as the yard of the month. Mrs. Price Ringo announced the program on "Flowers and Table Settings". Mrs. Oliver Williams gave the minutes of the last meeting. The club collected was read in union.

The following committee reports were made: Mrs. Duke Tatum, Sr. reported on the work at hospital and nursing home. Mrs. I. T. Rhodes reported on the work on the cemetery. Mrs. J. M. Kimmy reported on the nursing home, and Mrs. Oliver Williams made a report.

Mrs. Glon Vickers and her daughter, Mrs. Rex Bass, of Hapeville, Ga., visited Mrs. Vickers' mother, Mrs. Ben Denham, and sister, Miss Frances Conner, last week.

Mrs. Virgil Day, of New York City, and Mrs. William Bullock, of Hattiesburg, Mississippi, are visiting their father, Mr. John Brunson.

Mrs. and Mrs. O. P. Lee, of Opelika, were guests of Mr. and Mrs. Fountain Lee Wednesday night.

Mrs. M. J. Lee visited Mr. and Mrs. Richard Norman and family in Haleyville last week.

Mrs. T. B. Bryan spent a few days last week with Mr. and Mrs. Tom Bryan in Jasper.

Mrs. Roy McDowell, of Brundidge, and Mrs. Rickey Kennett and daughter, of Andalusia, were guests of Mrs. Bell Ham Tuesday.

Mr. and Mrs. Bert English, of Tusculoo, and Miss Nell English, of Montgomery, spent last weekend with their mother, Mrs. Lee English.

Mrs. Neta Fuller visited in the home of her daughter, Mrs. Rex Dick in Dothan Wednesday and Wednesday night.

Mrs. Edwin Cooper and Tommy, Mrs. Bessie

Photographers' Seminar To Be Held In Opp

The Professional Photographers of Mississippi are sponsoring a living color printing Seminar in Opp, Alabama, February 20. Mr. Van Blankenship, Professional Photographers Mississippi-Alabama Past President of Talladega will demonstrate living color printing done both with a minimum of equipment and with a maximum of equipment.

Miss Sandra Farris, of Pensacola, was a weekend guest of her aunt, Miss Euna Farris.

Sgt. and Mrs. Bill Smart and daughter are visiting Sgt. Smart's mother, Mrs. C. S. Smart, and Mrs. Smart's parents, Mr. and Mrs. Babe McCollough. Sgt. Smart will leave soon for a military assignment in Thailand, and his wife and daughter will remain with the wife's parents.

Mrs. G. C. Rushing was a patient at Elba General Hospital recently. She has returned to her home and convalescing nicely.

Since cotton fabrics are free of state, they do not cling.

Alabama College Slates Examinations

Alabama College has been designated as a supplementary center for administration of the National Teacher Examination.

Officials at the liberal arts college in Montevallo received notice of the appointment Thursday from the Educational Testing Service headquarters at Princeton, N. J.

This test is given on a nationwide basis. The next examination is scheduled for March 19, and will be given at Alabama College.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Robert Edward, Junior — that's his name. But soon it will be Bobby. And after a while he and I will probably be known as Big Bob and Little Bob.

Funny how you start looking ahead. When I came out of the shop today I happened to notice our sign — the big one with my name on it that hangs over the door. And I thought to myself, maybe someday, we'll add: & SON...

But Marge and I know better than that! You can't plan your son's life for him. He's got to make his own decisions, choose his own road.

One thing we have decided for him, though. That he's going to have all the moral and spiritual training a man needs to make right decisions and follow a straight road.

This God expects of us — of all parents. And our church is ready to do its vital part.

MISS CATHERINE ANN BOWDEN Engaged

Bowden, Young Wedding Planned For April 16

Mr. and Mrs. Charlie Bowden, of Elba, announce the engagement and forthcoming marriage of their daughter, Catherine Ann, to Ronnie K. Young, son of Mr. and Mrs. Alvie Lee McIntosh, also of Elba.

Miss Bowden, a 1965 graduate of Elba High School, is presently employed by a local attorney. The future groom, a 1961 graduate of Elba High School, is presently employed at Fort Rucker, Alabama.

The wedding will be an event of April 16 at 7 o'clock in the Whitewater Baptist Church. No local invitations will be sent but all friends and relatives of the couple are invited to attend the wedding and the reception which will immediately follow.

Start heating oven 350 degrees. Place filet on rack.

BEEF WELLINGTON FOR VIP'S

1-1/2 recipe Puff Paste
3-4 lb. filet of beef
3-4 lb. pieces of suet
2 T butter or margarine
4 chicken livers
1/2 lb. mushrooms, finely chopped
1/4 lb. ham, finely chopped
1 T catsup
1/3 c. sherry
1 egg

Several days before serving make puff paste and refrigerate wrapped. PUFF PASTE: Three days before serving into large bowl sift 2 cups sifted all-purpose flour. Make well in center. Put 1/2 cup water and 3/4 t salt with fork, working quickly and lightly, mix together, adding 1/4 cup more water as the 1/2 cup water is absorbed into flour. Refrigerate puff paste 15 min., then place it on a floured board and roll into rectangle, about 1/4 inch. Now shape 1 c. fine, but not hard, butter or margarine (1/2 lb.) into a flat square cake, thick. Place butter in center of paste, then fold paste over it, enclosing it in an envelope like shape. Roll folded paste away from you into a long, thin rectangle, as thin as possible without letting butter break through. Fold this rectangle in thirds; then bring one end over the center third, and other end over the first. Do a second "turn" on dough, then refrigerate 20 minutes. Do 2 more "turns". Then refrigerate 30 minutes. Then do 2 final "turns"; wrap paste in foil, then refrigerate until used. (Make 6 "turns" in all.)

Day before serving: Start heating oven 350 degrees. Place filet on rack

In roasting pan, then lay pieces of suet over it. Insert roast meat thermometer into center of filet. Roast filet to desired degree of doneness, then remove it from oven, take off suet, let filet cool. Then refrigerate it.

In hot butter or margarine, in skillet, saute chicken livers until browned; then chop them fine, return to skillet and add mushrooms, ham, catsup, and sherry. Cook, stirring, occasionally 10 minutes. Cool, stir in beaten egg yolk, remove to bowl, cover with foil, refrigerate.

About hour before serving on floured board, roll out 3/4 of Puff Paste into a rectangle large enough to enclose the filet. Now lay bottom center of filet along one edge of Puff Paste; over top of filet pat chopped ham mixture; then lift one end of Puff Paste up and over filet, overlapping both ends under filet. Tuck in other ends firmly. Then lift up filet and lay, seam side down, on large cookie sheet. Start heating oven 425.

Roll out remaining Puff Paste; then with small cookie cutters cut from it such decorative shapes with which to garnish filet. Quickly brush pastry surfaces of filet with slightly beaten egg whites; then arrange decorative shapes on top and brush again with egg white. Bake filet 30-40 minutes or until pastry is golden. Then with 2 broad spatulas, lift filet to serving platter; garnish, in serving cut into 1/2" slices.

Little Miss Betty Jane Bradford served as her sister's flower girl. Her dress was identical to the maid of honor's.

The groom's brother, Don Bowers, of Elba, was his best man.

Following the wedding ceremony, Janet Lord greeted guests in the activity area of the church and presided at the bride's book.

The three-tiered wedding cake, decorated with red roses and topped with a miniature bride and groom, was centered on a cloth of Swiss embroidered linen and flanked on either side by antique silver candelabra holding white candles and pink and white carnations.

Wedding punch was served from a silver punch bowl by Miss Gail Hundley and Miss Brenda McDurmont.

The groom's cake of devil food was served from the coffee table decorated in a red and white motif.

The bride and groom left for a short honeymoon and will be at home in Elba.

Bradford, Bowers Vows
Said On January 27

Patsy Jo Bradford and George M. (Buddy) Bowers, Jr. were united in marriage January 27 at seven o'clock in the evening. Reverend Zan White performed the lovely candlelight ceremony in Green Hill Presbyterian Church.

Parents of the couple are Mr. and Mrs. James R. Bradford, Sr., of Enterprise, and Mr. and Mrs. George M. Bowers, Jr., of Elba.

Jimmy Bradford, Eddie Brand, Michael Lusk and Robert Porter were ushers, and lighted the

Interlude preceding the ceremony. A program of nuptial music was presented by Mrs. Donald F. Lusk.

The wedding vows were spoken in a setting of banked magnolia leaves with standing baskets of white gladiolus and pale pink chrysanthemums.

The bride was attired in a short wedding dress with fitted jacket of white brocade silk and matching satin pumps. Her head dress was a white bandeau and veil. She carried a bridal bouquet of white roses.

VALENTINE THEME AT ESIC - Hearts and cupid brightened the scenes of three Enterprise State Junior College social events Saturday. Decorating for the Valentine dance at the Enterprise County Club Saturday night are, clockwise from bottom, Anita Brown, Fort Rucker; Dorothy DeVaughn, Enterprise; and Betty Roberts, Elba. Saturday afternoon, Mrs. B. A. Forrester, wife of the college president, entertained with a tea in honor of 15 finalists who were judges in a contest to select campus beauties for the annual. The beauty pageant was held at the country club preceding the dance.

My Neighbors

A case, for example, is that any boy 12 or under, or girl 18 years of age or under is prohibited from distributing or selling newspapers, magazines, periodicals, handbills or circulars, or working in any occupation performed on the street or in public places. However, boys 10 and 11 years old may carry newspapers or magazines in residential areas of a city.

The Alabama law covers the employment activities of any minor 17 years of age or under. The only exceptions are those engaged in domestic service or in agriculture, Roach said.

Roach complimented Alabama employers for their observance of the law and noted that its acceptance is a widespread phenomenon throughout the state. He emphasized that a clear understanding of the provisions and the purposes of the law are vital to all our citizens and to the continued economic growth of the state.

"This law is one means of guaranteeing our young people an opportunity to an education which is essential to the growth of the individual worker and to the over-all business community," Roach stated.

Workers and employers may obtain additional information on the law by contacting the Department of Industrial Relations or the local State Employment Service Office. The local State Employment Service facility is a source for qualified young workers.

"Towel" and "terry cloth" are synonymous because all-cotton terry cloth is the thickest of fabrics... ideal for bath and kitchen drying chores. The high absorbency and durability of terry cloth are not affected by frequent laundering. And, like all cottons, terry cloth is easy to keep clean. White cotton terry towels can be washed in very hot water... as hot as 160 degrees.

Young People Benefit From Labor Law

The Alabama Child Labor Law is designed to promote higher working standards for our young people and in no way is a roadblock to their employment," said Industrial Relations Department Director Rex D. Roach.

"There seems to be a misconception on the part of some people that the Child Labor Law will keep young people from accepting employment or employment from hiring minor workers.

"This is not the case at all," Roach said. "The law is simply a means of protecting our young people from premature toil in unsuitable working conditions and to insure them the benefits of a complete education."

Roach said, however, that the law does set certain standards of work and the types of employment minors at certain ages may take.

For example, minors in the 14 to 16 age group may enter certain types of non-mining and nonmanufacturing employment if they can prove themselves under the law and obtain a permit from the Department of Industrial Relations. In many instances these young employees can qualify with a permit issuing officer, usually a local school official.

RAINS AGREES TO HANDLE SPARKMAN CAMPAIGN—"An outstanding speaker, an experienced administrator, and a veteran campaigner," that's the way Sen. John Sparkman (left) described former Congressman Albert Rains (right) when Sparkman announced this week that Rains had agreed to handle Sparkman's campaign for reelection to the U.S. Senate.

... about your SOCIAL SECURITY ...

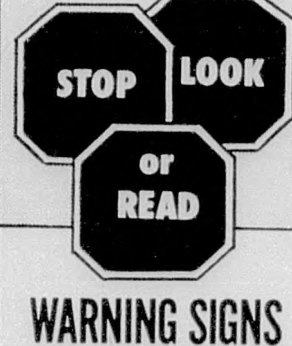

"If you have reached 65 and are not receiving social security or railroad retirement benefits, and have not signed up for Medicare, now is the time for action," Mr. Harry N. Scott, social security district manager in Dothan, stated recently.

He explained that almost every older person in the Nation is eligible for health insurance under the new law passed by Congress last year.

"The major part of hospital charges and doctor bills will be paid for those people 65 or older who sign up for the health protection," Mr. Scott said.

He is especially trying to reach two groups of people right now. One group includes those over 65 who have not applied for social security retirement benefits because their earnings are too high to qualify for social security. These people will have Medicare protection by applying for it.

"The second group we need to get in touch with are people who have not already done so to contact the social security office at the earliest possible date to apply for Medicare protection. He emphasized that the Medicare law will protect them only if they apply for it. Remember the deadline! Persons now 65 or over will have the Medicare insurance card of Medicare only if they apply before March 31. Further information can be obtained in person, by mail, or by telephone from the social security office in Dothan, located in the Federal Building, 100 West Troy Street. The telephone number is 79.

Just as traffic signs help you drive safely, the label on your prescription gives you information on safe dosage. Follow these directions carefully for best results. The next time you have a prescription to be filled, rely on our Rexall Pharmacy because prescriptions are the heart of our business.

human life as water. The chemistry of the human body calls for a salt concentration in the blood to be kept constant.

In those parts of the world where the population lives chiefly on meat or fish the year round, salt is no great problem as the meat and the fish supply enough salt. Salt deprivation is a problem in vast areas of the world where meat is scarce and people live primarily on a vegetarian diet.

The three billion people on earth today consume an estimated 80 million tons of salt a year. In some areas, people live on an average of about two grams per day per person; whereas in the U.S., the per capita use of salt is 280 grams a day.

Much salt comes from the sea, estimated at 30 million tons a year. The ocean has been for thousands of years and still is the main source of salt. Salt is also mined from huge deposits in this and other countries.

In the United States, large quantities of salt are produced from natural salt lakes, from rock salt, and by drilling into deep underground salt deposits where water is pumped in and the brine pumped out. Salt is also obtained from solar pans on the California coast where water is evaporated from natural brine by the sun.

Salt is not only necessary to life, it adds flavor to our food.

"Your Health" is presented by your physician as a health service of The Medical Association of the State of Alabama.

LETTERS TO THE EDITOR

Elba General Hospital.

Sincerely,
Jake Bonneau

Editor
The Elba Clipper
Elba, Alabama

Having been associated with ambulance service for a period of more than fifteen years, I feel that I know what a local hospital means to the people of an area.

There are emergency occasions when adequate facilities are of the utmost importance. On hospitalization of any member of one's family, it is not only inconvenient to go to another city to see patients but for some people it is very much of a hardship. I am very much in favor of additional rooms for

consideration to the political situation in Alabama and it is my opinion that with things as they now stand conservatism is dealt a severe blow . . . at a time when it can least afford a serious setback anywhere. It is now obvious that other candidates whose views possibly parallel my own are offering for the office of Governor of Alabama, and I refuse to be involved in a political fight pitting true conservatives against each other.

With this determination and out of consideration for my many friends, I now announce that I shall not be a candidate for Governor in the Democratic primaries.

What Alabama Makes Makes Alabama

The Elba Clipper

ELBA, ALABAMA, THURSDAY, FEBRUARY 24, 1966

Elba Native Selected Manager of Local Garment Plant

JERRY ANDREWS

Jerry B. Andrews has been selected as plant manager of Elba Apparel Inc. He replaces Paul Enzor who has been appointed plant manager of the Alates-Pike plant, Troy, Alabama. Andrews will assume the full responsibilities of the job on February 28, 1966.

He is a local boy, born in Coffee County and lived in Elba five years before moving to Opp. He graduated from Opp High School and received his B.S. degree in Business Administration from Auburn University. Andrews accepted employment with Alabama Textile Products Corporation, Andalusia, Alabama, September 1, 1964. Since his employment with this company he has worked in the Enterprise plant and the Elba plant.

Andrews presently resides in the Andalusia, He is a member of the Andalusia Toastmasters Club and serves that organization as Administrative Vice-President. He is married to the former Linda Messick, Mrs. Andrews is presently employed with the Andalusia school system as a math teacher. They attend the First Baptist Church in Andalusia.

Wallace To Announce His Plans Today

Governor George Wallace has called a news conference for 11 A.M. Thursday (today) to announce his political intentions, but according to sources close to the administration, it will be to announce that Mrs. Wallace will be entering the race for governor in the May 3rd Democratic primary.

According to reports reaching Elba through strong supporters of the Wallace Administration, the conference will be to announce Mrs. Wallace as a candidate. This is further supported by the fact that they are urging women to accompany their husbands to Montgomery for the press conference.

Sam Sawyer and Hayward Grimes are both SEE WALLACE, PAGE 2.

Hog Growers To Hold Meeting Here Tonight

Coffee County Hog Producers' Association will hold their first annual meeting Thursday night at the Elba High School Luncheon. Ira Allen, president of the association, will preside.

They are holding the meeting to promote a more profitable hog production in Coffee County and to provide a group through which common problems can be more easily solved. President Allen urges all members to attend the meeting.

Draft Board

Seeking "Lost" Registrants

The draft board is asking for help in locating several men.

Local Board 16 of the Selective Service is seeking the addresses of the following registrants:

Harry Richard Smith, Jimmy Harold Graham, Wilbur Newton Money and Will Fleming, Jr.

The local board needs the mailing addresses of these men, according to the board clerk, Wayne Howell.

Anyone knowing the whereabouts of these men can come by the board office in Elba or write P.O. Box 155, Elba, giving this information.

Drexel Cook

To Qualify This Week

Representative Drexel Cook indicated late Tuesday in a telephone conversation with the Clipper that he intends to qualify either Friday or Saturday. Cook has served two terms in the House and prior to that he served as Executive Assistant to the State Revenue Commissioner.

Coffee County politics received two more candidates this week when Lewey Stephens, Sr., qualified for Beat Committee from Beat 9 and Mike Thomas qualified for committeeman from Beat 10.

Local Girl Scouts To Sell Cookies Again

"A Girl Scout is administrative camping expenses with the cookie sale each year.

Seven day camps are held in the council each summer and two resident camps are operated. All major equipment, building, and maintenance costs come from the 40¢ cookie sale profit to the council. Without this sale each year Girl Scout camping would be many times more expensive for the individual girl.

Troops use their 10¢ profit to help finance troop service projects, troop trips, and to buy troop equipment.

In addition to the monetary value to Girl Scouting, the cookie sale gives the girls an opportunity to practice their salesmanship abilities, to present Girl Scouting to the public, and to put their Promise and Laws into effect.

Five kinds of cookies will be on sale this year from February 26th through March 12th. They are chocolate mint, vanilla chocolate sandwich, butter, peanut butter, and sugar'n spice.

Local Girl Scout Cadettes (seventh, eighth, and ninth graders) will have a booth downtown all day Saturday. They will be selling their cookies.

Westside Baptist To Take Census Of Elba

On Sunday afternoon, February 27th, the Westside Baptist Church will take a religious census of Elba. This census is a part of the church's preparation for the revival beginning April 10th.

The people of Elba are requested to cooperate in giving complete information to the census takers.

Ringsdorf Awarded For First Federal Service In Viet Nam Reports Progress For Last Year

Lieutenant Ben Ringsdorf, son of Doctor and Mrs. W. M. Ringsdorf, Sr., of Elba, has been awarded the Distinguished Flying Cross, and the Air Medal with the first Oak Leaf Cluster for his service in Viet Nam.

Lieutenant Ringsdorf's defense forces to the advantage. Despite the hazards involved, . . . substitution of bomb damage assessment confirmed that the target had been completely destroyed. . . . The professional competence, aerial skill and devotion to duty displayed by Lieutenant Ringsdorf reflect great credit upon himself and the United States Air Force.

The Air Medal and first Oak Leaf Cluster were awarded for meritorious achievement during the period from July 26th to October 24th, 1965 during which time Ringsdorf was participating in sustained aerial flight as a combat crew member in Southeast Asia.

The Oak Leaf Cluster is awarded in lieu of another Air Medal due to a law passed by congress in 1919 forbidding anyone from being awarded the same medal more than once.

Other directors are Oscar Vaughan, Jr., W. L. Brunson, Doctor J. E. Pittman, Jr., Joe S. Pittman, Jerry Brunson, and Lewey Stephens, Jr.

Officers for 1966 are Jerry Brunson, President; Joe S. Pittman, Vice President and Secretary; Lewey Stephens, Jr., Treasurer; and Dora B. Moore, Assistant Secretary.

The Oak Leaf Cluster is awarded in lieu of another Air Medal due to a law passed by congress in 1919 forbidding anyone from being awarded the same medal more than once.

On Sunday night, February 27th, in the 7:00 worship service at Westside Baptist Church, Jimmy Hudson, at the junior college university, will be ordained to the gospel ministry. He has been a student at Samford since September, 1965. He has been a student at Samford since September, 1965. He has been a student at Samford since September, 1965.

Jimmy Hudson is married to the former Angie Sykes, of Elba. Mrs. Hudson is a recent graduate of Elba High School.

Students wishing to attend the spring quarter at the University of South Alabama are urged to make their applications prior to the closing date: day students - Feb. 25, evening students - March 9. Registration will be held for day students on Thursday and Friday, March 24 and 25 from 8 a.m. to 4:30 p.m.

Details concerning procedures for application or registration may be obtained from the registrar's office.

Kinston Homecoming Queen Crowned

MISS JOYCE NELL FARRIS

On February 4th the annual homecoming was held at Kinston High School. A barbecue was conducted and beginning at 6:30 a basketball game was held between Kinston and Arton. During half-time, the coronation of Miss Joyce Nell Farris, daughter of Mr. and Mrs. D. Farris, as 1966 Homecoming Queen took place. Miss Farris, daughter of Mr. and Mrs. D. Farris, was escorted by Mr. Glenn Moody, Senior Class president. She was crowned in center court by Mr. James Williams, principal of Kinston High School.

Attendees for the memorable occasion were Miss Maria Mack, daughter of Mr. and Mrs. John G. Mack, who was escorted by Mr. Douglas Rhoades, son of Mr. and Mrs. C. E. Rhoades. Both Miss Mack and Miss Kelley were dressed in blue satin gowns.

Public Service Commission Race Is On

Former Commissioner C. C. "Jack" Owen and State Representative Fred H. Davis both qualified this week for places on the Public Service Commission. Owen is seeking position #1 and Davis has qualified for place #2.

Owen said "Unfortunately, in the past few years, the Public Service Commission has fallen into the hands of a majority of two who apparently have no concern for public interest. Their actions have invited criticism and dishonor to the Public Service Commission for the first time in my memory."

"I want to return the Public Service Commission to the people of Alabama and to conduct the public's business in an honest and decent manner."

Davis, from Bibb County, said on qualifying, "I would like to say for the past four years since I have been in the Legislature, I have been aware of the hickering, strife and discord in the Public Service Commission. I tried to do something about this in the Legislature. I introduced three bills that passed the House, but were held in Committee in the Senate. . . I want to publicly say today, the Public Service Commission needs attention now, this moment and I, Fred H. Davis, pledge to all Alabamians, if honored with this trust, I will keep you advised. . . I will seek harmony and work for the interest of this state."

Elba Youth Elected First EJC President

George Landingham of Elba has been elected first president of the Enterprise State Junior College Student Government.

Other newly elected SGA officers are Joey Ferguson, Rt. 1, Enterprise, vice president; Amelia Sessions, Kinston, secretary; and Dorothy DeVaughan, Enterprise, treasurer.

An outstanding student, George was one of 12 students named to the ESJC Student's List for the spring quarter. He is enrolled in the pre-engineering program at the junior college and plans to transfer to Auburn University.

Other newly elected SGA officers are Joey Ferguson, Rt. 1, Enterprise, vice president; Amelia Sessions, Kinston, secretary; and Dorothy DeVaughan, Enterprise, treasurer.

Little Theatre Production Planned Soon

The next production for the Elba Little Theatre, "The Hellfire," will be under the direction of Lamar Rainer, Jr.

"The Hellfire" is written by Augustus and Ruth Goetz and will be presented on March 11 and 12.

H-CLUB PRESIDENTS AND VICE PRESIDENTS OF Coffee County held a planning meeting recently in the board room of the Elba Exchange Bank. Attending the meeting with the club officers were representatives of the County Extension Service.

Some of those attending are pictured here. They are from left to right: front row, Carl Sanders, New Hope; Margie Downing, New Hope; Ronald Grimes, Curtis; Larry Stokes, Zion Chapel; Back Row is June Childs, New Hope; Diane Davis, Curtis; Larry Span, Curtis; Charlotte Miller, Zion Chapel; Bobbie Davis, Kinston and Pat Hatcher, Kinston. Looking over the group is Mrs. Sara Hutchinson of the Coffee County Extension Service.
